Not, as you may vainly imagine, because you are the first young man who ever wore a stove-pipe hat, but because it is apparent even to the old blind man who sits in the back pew, without cushion in away back under the gallery, where the poor have the gospel preached at them, that it is the first time ever you wore a hat of that description. Your old father claps one on the back of his head, puts his hands into his pockets, holds up his head, and walks off down the streets in a gale of wind, and never thinks of his hat. But you, son, you pull yours on at the most graceful angle it can be posed, and you go tottering along, both hands ready to fly at the hat at the slightest provocation of the ghostliest phantom of a puff of wind. You don't look comfortable, son. Your hat is always trying to come off; you bump it against everything you pass; you rub it the wrong way when you try to brush the dust off of it. When you carry it in your hand up the aisle, everybody smiles, because you first hold it by the brim and let the crown top gracefull over your arm, and, by the time you have hit three or four worshippers in the head with it, you change and turn it under your arm and try to carry it that way without touching it;

JOHN HOLLAND'S Patent Record GOLD PEN Is the highest achievement in the manufacture of Gold Pens and the result of experiments for more than twenty years. The "RECORD!" Pen is produced by a skillful combination of the two precious and non-corrosive metals; 16 kr. Gold and Platinum, while the ordinary gold pen contains an alloy of copper, reducing its fineness without yielding that elasticity, density and steel like temper which the costly Platinum supplies. The "RECORD!" Gold Pen Points are of the best Iridium. (Diamonds.) indestructible with fair treatment, and polished to glass like emoothness. Steel pen writers have now every objection to gold fairly overcome, and every requirement in a Pen which will endure and not oxidize, squarely met. The "RECORD!" Gold Pen is guaranteed to possess Durability, Permanency of Spring and Perfection of Point. Price, \$2.50, sold by all Jewelers and Stationers in the United States. If not found order direct from JOHN HOLLAND, Manufacturer, 19 W. 4th St., Cincinnati.

The Leath Institute, HIGH SCHOOL FOR GIRLS. In the month of June last the Directors of the Presbyterian Grammar and High School, with a view to emiarge its scope of usefulness, and the better to carry out their design of having in Memphis a non-sectarian school for girls and young lades, determined to enlarge their Directory by admitting within it representatives of all evangelical denominations. It was deemed expedient to indicate the change by a corresponding alteration in the name of the school, and accordingly it was resolved to adout the name of the "Leath Institute," in honor of our late esteem of fellow-citizen, James T. Leath. The Directors have engaged as principal Miss AUGUSTA TOVELL, a lady widely known as an accomplished teacher. A full and competent corps of assistant trachers will be employed, and the exercises of the school will begin as soon as the health of Memphis will permit. Circulars will be mailed to any address upon application to the Secretary of the Board of Directors. Rev. E. Daniel, No. 62 Poplar street, Memphis, Tennessee.
